

RB002 Week 7 — English Worksheet (Beginner)

Topic: Build Week — Your Full Quest · **Course:** Story Quest · **Level:** Beginner · **Time:** about 30 minutes

No new syntax this week. You connect everything you know into **one full quest** that a player can start and finish.

1 · Predict 🌟

Read the NPC script. Before you imagine it running in Roblox Studio, circle or write your answer.

```
if questDone then
    print("Elder: Thank you again!")
elseif crystals.Value >= 5 then
    print("Elder: Here is your reward!")
else
    print("Elder: Please find 5 crystals.")
end
```

The player has 0 crystals and `questDone` is `false`. Does the Elder say "Please find 5 crystals."?

Circle one: yes · no

Why?

```
if questDone then
    print("Elder: Thank you again!")
elseif crystals.Value >= 5 then
    print("Elder: Here is your reward!")
end
```

Now `questDone` is `true`. Does the Elder say "Thank you again"? Circle one: yes · no

2 · Find the Difference 🐛

Each pair shows a clean script first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The reward should happen **once**, so the script must remember the quest is done.

```
-- clean
elseif crystals.Value >= 5 then
    questDone = true
    giveReward(player, 100)
end
```

```
-- buggy
elseif crystals.Value >= 5 then
    giveReward(player, 100)
end
```

What is wrong? What happens every time the player talks to the Elder?

Pair B — The world only has 5 crystals, so the quest must finish at 5.

```
-- clean
elseif crystals.Value >= 5 then
    questDone = true
end
```

```
-- buggy
elseif crystals.Value >= 50 then
    questDone = true
end
```

What is wrong? Can the player ever finish the buggy quest?

3 · Fill the Gap

When the player brings 5 crystals, the script should remember the quest is done. One word is missing. Fill it in using the word bank.

```
elseif crystals.Value >= 5 then
    questDone = ____
    giveReward(player, 100)
end
```

Word bank: true · false · nil

Write the missing word:

4 · Tell Me What You Built 📷

Now open your Story Quest game in Roblox Studio and build your **full quest**: 2 or 3 NPCs, items to collect, and a reward. When you finish, come back here.

Send a photo or video of your quest world, then explain your plan. Use these sentence starters — write 2 or 3 sentences.

My quest story is ...

The player must collect ...

The reward is ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you play your quest from start to finish. Talk like you are teaching a friend. Try to use these words: **quest**, **reward**, **elseif**.

1. Press Play, talk to your NPC, and read the line out loud.
2. Collect the items and show the reward moment.
3. Talk to the NPC again and show that the line changed.

Write what you will say in your video. You can read from it while filming.
