

M000 Pre-Lesson — Get Comfy in Minecraft

Topic: Moving & Building · **Course:** Builder Basics · **Time:** about 15 minutes

A quick warm-up **before Lesson 1**. No coding. Just get comfortable moving around and building on your tablet. Open your Minecraft world and play.

1 · Move Around

Try each one. Tick the box when you can do it.

- ☐ Walk
- ☐ Look around
- ☐ Jump
- ☐ Tap to place a block
- ☐ Hold to break a block

On a tablet: move with the **left thumb pad**, look by **dragging the right side**, **tap** to place a block, **hold** to break one.

2 · Build a House 🏠

Build a small house. Any size is fine. It needs **3 things**:

- ☐ Walls (use any block)
- ☐ A door
- ☐ A window (use a **glass pane**)

3 · Send It 📷

Take a photo of your house and send it to your teacher on KakaoTalk.
