

M000 Week 4 — English Worksheet (Intermediate)

Topic: House Walls (No Roof) · **Course:** Builder Basics · **Level:** Intermediate · **Time:** about 38 minutes

1 · Predict 🧠

Read each set of steps. Write what you think will happen.

```
repeat 8 times:
  place block down
  move forward
```

What does the agent build? Write one sentence.

```
repeat 8 times:
  place block down
  move up by 1
```

Is this a wall lying flat on the ground, or standing up tall? How tall is it?

```
repeat 3 times:
  repeat 8 times:
    place block down
    move up by 1
  move forward
```

The agent runs the inside loop, then the outside loop. What shape does it finish with? About how many blocks did it place?

2 · Find the Bug 🐛

Each code block is broken. The goal is written first. Fix the code, then explain in one sentence why your fix works.

Bug A — Goal: a single wall that is **8 blocks long** on the ground. *Hint: count how many times the loop runs.*

```
repeat 7 times:
  place block down
  move forward
```

Write the fixed code:

Why does your fix work? One sentence.

Bug B — Goal: build **two walls** — a wall 8 blocks long, then turn right once, then another wall 8 blocks long. *Hint: the turn should happen only one time, not on every loop.*

```
repeat 8 times:
  place block down
  move forward
  turn right
```

Write the fixed code:

Why does your fix work? One sentence.

Bug C — Goal: a wall that is **8 blocks long AND 8 blocks tall** — a square of blocks. *Hint: you need one loop inside another loop.*

```
repeat 8 times:  
  place block down  
  move up by 1  
  move forward
```

Write the fixed code:

Why does your fix work? One sentence.

3 · Fill the Gap

The agent should build one wall, turn right, then a second wall. Two lines are missing.

```
repeat 8 times:  
  place block down  
  move forward
```

```
_____  
repeat 8 times:  
  place block down
```

Word bank: turn right · move up by 1 · move forward · place block down

Write the two missing lines and say why you chose each one.

4 · Show Your Work 📷 🎥

Now switch to your homework world. Build your house walls with **no roof yet** — about 8 blocks long and 8 blocks tall, using two loops. When you finish, come back here.

Record **one video** (a phone is fine). Show two things:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Fill the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

Write your lines here, then say them in your video.
