

Builder Basics — The Impossible Statue (Extension · Beginner)

Topic: Place + Move, On and Off · **Course:** Builder Basics · **Level:** Beginner · **Type:** Extension Activity ·
Time: about 30 minutes

✚ This is a bonus challenge, not a weekly lesson. Try it once you can place blocks and move the agent.

1 · Read the World

Open the **Impossible Statue** world. It is a puzzle. Look at the colours first:

-  **Red blocks** — where the agent **starts** and where it **ends**.
-  **Crying obsidian** — **build here**. Place a block on every dark spot.
-  **Glass** — **skip here**. Move past it, but place **nothing**.

What do you do on a crying obsidian spot? Circle one: place a block · skip it

What do you do on a glass spot? Circle one: place a block · skip it

2 · Place On, Place Off

On a build spot, you **place**. On a skip spot, you only **move** — no place.

```
place block down  
move forward  
move forward  
place block down
```

How many blocks does this place? Circle one: 1 · 2 · 3

Why do we skip a step? Circle one: it is a glass spot · it is a build spot · it is the start

3 · Fill the Gap

The pattern should be: **build, skip, build** (B S B). One line is missing.

```
place block down  
move forward  
_____  
place block down
```

Which line is missing? Circle one: move forward · place block down · turn right

4 · Find the Mistake 🐛

The pattern should be **build, skip, build** (B S B). This code places a block on the skip spot by mistake.

```
place block down  
move forward  
place block down  
move forward  
place block down
```

What is wrong? Circle one: it builds on the skip spot · a build is missing · it turns the wrong way

5 · Show Your Work 📷 🎥

Go to the Impossible Statue world. Place blocks on the crying obsidian spots, skip the glass spots, and finish on the red end block.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.
