

M000 Week 1 — English Worksheet (Beginner)

Topic: Agent Movement · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Circle your answer.

```
move forward  
move forward
```

How many steps does the agent take? Circle one: 1 · 2 · 3

Where is the agent now? Circle one: 2 steps ahead · back at the start · up high

```
move forward  
turn right  
move forward
```

Does the agent walk in a straight line? Circle one: yes · no

What does turn right change? Circle one: the way it faces · its height · the block it holds

2 · Find the Difference 🐛

Clean steps first, then a broken version. Circle the bug.

Pair A — The agent should walk 3 steps forward.

```
# clean
move forward
move forward
move forward
```

```
# buggy
move forward
move forward
```

What is wrong? Circle one: one step missing · one step extra · a wrong turn

Pair B — The agent should walk forward, then turn right.

```
# clean
move forward
turn right
```

```
# buggy
turn right
move forward
```

What is wrong? Circle one: wrong order · a step is missing · an extra turn

3 · Fill the Gap

The agent goes forward 2 steps, then **up** 2 blocks. One line is missing.

```
move forward
```

```
move forward
```

```
_____
```

Which line is missing? Circle one: move up by 2 · turn right · move forward

4 · Show Your Work 📷 🎥

Switch to your homework world. Move your agent **5 steps forward**, then make it **turn once**.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.
