

M000 Week 6 — English Worksheet

Topic: Building a Well · **Course:** Builder Basics · **Time:** about 45 minutes

1 · Predict 🧠

Read each set of steps. Before you imagine the agent doing it, write what you think will happen.

```
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

What shape does the agent leave on the ground? How many blocks total?

```
repeat 3 times:
  destroy block down
  move down by 1
```

What does the agent do? How deep is the hole?

```
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
repeat 3 times:
  destroy block down
  move down by 1
```

Put together, what does the agent build? Describe in one sentence.

2 · Spot the Bug 🐛

Each block of code below was meant to do something, but it is broken. Read what the code is **supposed** to do, then rewrite it so it works. After that, explain why the original was wrong and why your fix works.

Bug A — The agent is supposed to build the **4 sides** of a 3×3 square wall around the well.

```
repeat 3 times:  
  place block down  
  move forward  
  turn right
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug B — The agent is supposed to **dig 3 blocks straight down** to make the well hole.

```
repeat 3 times:  
  destroy block down
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug C — The agent is supposed to build the square wall **first**, then dig the hole.

```
repeat 3 times:
  destroy block down
  move down by 1
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

Write the fixed code:

Why was it wrong? Why does your fix work?

3 · Tell Me What You Built 📷

Now switch to your homework world. Build a **deeper well** — at least 5 blocks deep, with the 3×3 square wall on top. When you finish, come back here.

Send a photo or video of your well, then explain what you did. Use these sentence starters — write 4 to 6 sentences total.

First, I built the square wall by ...

Then I dug down by ...

The well is ... blocks wide and ... blocks deep.

The hardest part was ...

To fix it, I ...

If I had more time, I would ...

4 · Record Your Walkthrough

Now take a video on your phone (or a parent's phone) while you walk the camera around your well. Talk through it like you are teaching someone who has never seen it. Try to use these words: **square, wall, dig, destroy, deep.**

1. Show the well from outside, then look down inside it.
2. Read the wall loop and the dig loop out loud and say what each one does.
3. Show one bug you hit and how you fixed it.
4. Say how wide the wall is and how deep the well goes.

Write what you will say in your video. Use the space below to plan it before you record — you can read from it while filming.
