

M001 Week 1 — English Worksheet

Topic: First Hello with the Agent · **Course:** Pyramid Problems · **Time:** about 45 minutes

1 · Predict

Read each set of steps. Write what you think will happen.

```
move forward
place block down
move forward
place block down
```

How many blocks did the agent place? Are they next to each other or apart?

```
turn right
move forward
turn right
move forward
```

Which direction is the agent facing at the end?

```
move up by 2
place block down
move up by 2
place block down
```

Are the two blocks side by side, stacked, or floating? Explain.

2 · Spot the Bug 🐛

Each code block is broken. Read what it should do, rewrite it, then explain why the original was wrong.

Bug A — The agent is supposed to place a block, then move forward, then place another block.

```
place block down  
place block down  
move forward
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug B — The agent is supposed to face right and then move 3 steps forward.

```
move forward  
move forward  
move forward  
turn right
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug C — The agent is supposed to place 3 blocks side by side in a straight line.

```
place block down
move up by 1
place block down
move up by 1
place block down
```

Write the fixed code:

Why was it wrong? Why does your fix work?

3 · Show Your Work 📷 🎥

Switch to your homework world and build a **7-block straight path** by moving and placing one block at a time. Then build it once more with a **different block type** (stone, dirt, or wood — your choice).

Record **one video** (a phone is fine). Show two things:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Fill the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

Write your lines here, then say them in your video.
