

## M002 · AND Conditions

**Topic:** AND — two things both true · **Course:** Maze Madness · **Level:** Beginner · **Time:** about 25 minutes

**AND** checks two things. The action runs only when **both** are true.

### 1 · Predict

```
if wall ahead AND wall on right:  
    turn left
```

Wall ahead. Right side open. Does it turn? Circle one: **yes** · **no**

Wall ahead AND wall on right. Does it turn? Circle one: **yes** · **no**

---

## 2 · Find the Difference 🐛

Turn left only at a corner: wall ahead AND wall on right.

```
# clean
if wall ahead AND wall on right:
    turn left
```

```
# buggy
if wall ahead:
    turn left
```

**When does the buggy one turn too early? Circle one:** at any wall ahead · only at corners · never

---

### 3 · Fill the Gap

Turn left only when **both** walls are there. Fill the blank.

```
if wall ahead ____ wall on right:  
    turn left
```

**Missing word? Circle one:** AND · IF · THEN

---

## 4 · Show Your Work 📷 🎥

Solve the maze with one **AND** .

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

**1 · Your code.** Scroll through it. Say what each part does.

**2 · Your build.** Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built \_\_\_\_\_.

I built it using this code: \_\_\_\_\_.

In this code I used \_\_\_\_\_.

The hardest part was \_\_\_\_\_.

That part was hard because \_\_\_\_\_.

The most fun part was \_\_\_\_\_.

Something new I learned was \_\_\_\_\_.
