

M003 · Recreate the Ender Dragon (x, y, z) — English Worksheet (Intermediate)

Topic: Recreate the Ender Dragon (x, y, z) · **Course:** 3D Coordinates · **Level:** Intermediate · **Time:** about 40 minutes

A big blocky **ender dragon** stands in your world. It is a set of **parts** — a long **body** (deep along z), a front **head**, and two **wings** (spread along x) — each block **(x, y, z)**: x **across**, y **up**, z **forward**.

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict 🧠

Read each snippet. Write a prediction.

```
fill black from (0, 6, 0) to (0, 6, 8)
```

One block wide, long along z. Which way does it run, and how long is it?

```
fill black from (1, 6, 4) to (4, 6, 4)
```

This is one wing. Which number changes? Does it go left/right (x), up (y), or deep (z)?

```
fill black from (0, 6, 0) to (0, 6, 8)
place black block at (0, 7, 9)
```

The body, then the head. Is the head in front of the body or behind it? Higher or the same height?

2 · Spot the Bug 🐛

Bug A — This should be a **long body** running deep (along z), from (0, 6, 0) to (0, 6, 8). Right now it is only one block.

```
fill black from (0, 6, 0) to (0, 6, 0)
```

Write the fixed code:

Why was it wrong? Why does your fix work? 1–2 sentences.

Bug B — This should be a **wing** spreading out to the side (along x), from (1, 6, 4) to (4, 6, 4). Right now it grows **up** instead of out.

```
fill black from (1, 6, 4) to (1, 9, 4)
```

Write the fixed code:

Why was it wrong? Why does your fix work? 1–2 sentences.

3 · Show Your Work 📷 🎥

Look at the dragon and walk around it, then copy it on your home spot, part by part:

```
fill black from (0, 6, 0) to (0, 6, 8)
place black block at (0, 7, 9)
fill black from (1, 6, 4) to (4, 6, 4)
fill black from (-4, 6, 4) to (-1, 6, 4)
```

That is body, head, right wing, left wing. Add two **purple** eye blocks, and make the wings the same length on both sides.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Fill the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.

Write your lines here, then say them in your video.
