

## M004 · Chat Commands — English Worksheet (Beginner)

**Topic:** Chat Commands · **Course:** Functions & Games · **Level:** Beginner · **Time:** about 30 minutes

This lesson you type a word in chat and your code runs. A **chat command** can take a number — `tower 5` builds a 5-block tower.

### 1 · Predict

```
on chat command "bridge":  
  repeat 6 times:  
    place block  
    move forward
```

You type `bridge`. Does the agent build the bridge? Circle one: yes · no

Why? Circle one: the command name matches · the command name is wrong

```
on chat command "tower" with number n:  
  repeat n times:  
    place block  
    move up
```

You type `tower 4`. Is the tower 4 blocks tall? Circle one: yes · no

## 2 · Find the Difference 🐉

**Pair A** — Typing `bridge` should run the code. The command **name** must match what you type.

```
# clean
on chat command "bridge":
  repeat 6 times:
    place block
    move forward
```

```
# buggy
on chat command "brige":
  repeat 6 times:
    place block
    move forward
```

**What is wrong? Circle one:** command name misspelled · wrong number

**Pair B** — The number from chat should go **into** the function.

```
# clean
on chat command "tower" with number n:
  build_tower(n)
```

```
# buggy
on chat command "tower" with number n:
  build_tower(3)
```

**What is wrong? Circle one:** uses `3` not `n` · uses `n` not `3`

---

### 3 · Fill the Gap

One word is missing.

```
on chat command "tower" with number n:  
  repeat ____ times:  
    place block  
    move up
```

Fill the gap. Circle one: ☐ n · ☒ tower · ☐ chat

---

## 4 · Show Your Work 📷 🎥

Switch to your homework world. Make one chat command with a number that builds something.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

**1 · Your code.** Scroll through it. Say what each part does.

**2 · Your build.** Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built \_\_\_\_.

I built it using this code: \_\_\_\_.

In this code I used \_\_\_\_.

The hardest part was \_\_\_\_.

That part was hard because \_\_\_\_.

The most fun part was \_\_\_\_.

Something new I learned was \_\_\_\_.
