

## M004 · Player Events — English Worksheet (Beginner)

**Topic:** Player Events · **Course:** Functions & Games · **Level:** Beginner · **Time:** about 30 minutes

This lesson your code reacts to **you**, the player. An **event** like `on player walk:` runs by itself when the player does something.

### 1 · Predict

```
on player walk:
  if block below is gold:
    say "Treasure room!"
```

The player walks onto a gold block. Does the message appear? Circle one: yes · no

Why? Circle one: the block below is gold · the block below is stone

```
on player place block:
  say "You built something!"
```

The player walks around and places nothing. Does the message appear? Circle one: yes · no

---

## 2 · Find the Difference 🐉

**Pair A** — The trap should run **by itself** when the player walks, not wait for a chat command.

```
# clean
on player walk:
  if block below is gold:
    say "Trap!"
```

```
# buggy
on chat command "trap":
  if block below is gold:
    say "Trap!"
```

**What is wrong? Circle one:** waits for a chat command · runs by itself

**Pair B** — The message should celebrate **placing a block**, so it needs the right event.

```
# clean
on player place block:
  say "Nice building!"
```

```
# buggy
on player walk:
  say "Nice building!"
```

**What is wrong? Circle one:** wrong event, walk not place · wrong message

---

### 3 · Fill the Gap

One word is missing.

```
on player ____:  
  if block below is gold:  
    say "Treasure room!"
```

Fill the gap. Circle one: walk · gold · say

---

## 4 · Show Your Work 📷 🎥

Switch to your homework world. Build one trap or one reward that fires with **on player walk:** .

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

**1 · Your code.** Scroll through it. Say what each part does.

**2 · Your build.** Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built \_\_\_\_\_.

I built it using this code: \_\_\_\_\_.

In this code I used \_\_\_\_\_.

The hardest part was \_\_\_\_\_.

That part was hard because \_\_\_\_\_.

The most fun part was \_\_\_\_\_.

Something new I learned was \_\_\_\_\_.
