

M003 Week 7 — English Worksheet (Beginner)

Topic: Recreate 2 Mob Heads (x, y, z) · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

Two blocky **mob heads** stand in your world — a **creeper** and a **skeleton**. Each one is a cube with a face on the **front**. Every block needs **three** numbers: **(x, y, z)**. x is **across**, y is **up**, z is **forward** (deep). Look at one head, then build a small cube head of your own.

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict

Read the steps. Circle or write your answer.

```
place green block at (0, 4, 1)
place green block at (0, 4, 2)
```

Only z changes. Circle one: across · up · deeper

```
place green block at (0, 4, 1)
place green block at (0, 5, 1)
```

Only y changes. Circle one: across · up · deeper

2 · Find the Difference 🐛

Correct first, then **broken**. Write one short sentence about the bug.

Pair A — An eye should be on the **front** at (2, 5, 1).

```
# correct
place black block at (2, 5, 1)
```

```
# broken
place black block at (2, 5, 2)
```

What is wrong? Which number is different?

Pair B — The cube should be **2 blocks deep**: z goes 1 then 2.

```
# correct
fill green block from (0, 4, 1) to (2, 6, 2)
```

```
# broken
fill green block from (0, 4, 1) to (2, 6, 1)
```

What is wrong? How deep is the broken one?

3 · Fill the Gap

The cube is **2 blocks deep**, but the eyes go on the **front** ($z = 1$). Fill the blanks.

```
fill green block from (0, 4, 1) to (2, 6, __)  
place black block at (0, 5, __)  
place black block at (2, 5, __)
```

Word bank: 1 · 2

Write the three numbers:

4 · Tell Me What You Built 📷

First, build this small green cube and add two eyes on the **front**.

```
fill green block from (0, 4, 1) to (2, 6, 2)
place black block at (0, 5, 1)
place black block at (2, 5, 1)
```

This is a **3×3 front, 2 blocks deep**, with two eyes on the front.

Now pick **one** head in the world (creeper or skeleton). Build a small cube head like it on your home spot. Send a photo. Then finish these — 2 or 3 sentences.

I built the ...

My cube is ... blocks deep.

The eyes are on the front because their z stays ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you show your cube head. Try to use these words: **x, y, z, across, up, deep**.

1. Show your home spot. Why stand on it every run?
2. Walk around your cube head — show the front and a side.
3. Point at one eye and say "x ..., y ..., z ...".

Write what you will say in your video. You can read from it while filming.
