

RB001 Week 5 — English Worksheet (Beginner)

Topic: Loops — Platforms that Vanish · **Course:** Obby Architect · **Level:** Beginner · **Time:** about 30 minutes

This week your scripts **repeat** using loops. A **for** loop repeats a set number of times. A **while true do** loop repeats forever.

1 · Predict 🧠

Read the script. Before you imagine running it in Studio, circle or write your answer.

```
local platform = script.Parent

for i = 1, 10 do
    platform.Transparency = i / 10
    task.wait(0.1)
end
```

Transparency = 1 means invisible. After the loop ends, is the platform invisible? Circle one: yes · no

Why?

```
local platform = script.Parent

while true do
    platform.Transparency = 1
    task.wait(2)
    platform.Transparency = 0
    task.wait(2)
end
```

while true do never stops. Does the platform keep blinking forever? Circle one: yes · no

2 · Find the Difference 🐉

Each pair shows a clean script first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The platform should blink: invisible, wait, visible, wait, forever.

```
-- clean
while true do
  platform.Transparency = 1
  task.wait(2)
  platform.Transparency = 0
  task.wait(2)
end
```

```
-- buggy
while true do
  platform.Transparency = 1
  platform.Transparency = 0
end
```

What is wrong? What happens to Studio with no `task.wait` ?

Pair B — The loop should count up from 1 to 10 to fade the platform.

```
-- clean
for i = 1, 10 do
  platform.Transparency = i / 10
  task.wait(0.1)
end
```

```
-- buggy
for i = 10, 1 do
  platform.Transparency = i / 10
  task.wait(0.1)
end
```

What is wrong?

3 · Fill the Gap

The platform should vanish, wait 2 seconds, then come back. One word is missing. Fill it in using the word bank.

```
while true do
  platform.Transparency = 1
  task.____(2)
  platform.Transparency = 0
  task.wait(2)
end
```

Word bank: wait · stop · loop

Write the missing word:

4 · Tell Me What You Built 📷

Now open your obby in Roblox Studio. Build one **blinking platform** using a `while true do` loop. Cross it in Play mode. When you finish, come back here.

Send a photo or video of your platform blinking, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I used a **loop** to ...

The platform vanishes when ...

One tricky moment was when ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) while you cross your blinking platform in Play mode. Talk like you are teaching a friend. Try to use these words: **loop**, **repeat**, **forever**, **wait**.

1. Show your platform, then press Play.
2. Read your `while true do` line out loud.
3. Say in your own words what a **loop** does.

Write what you will say in your video. You can read from it while filming.
