

RB003 Week 2 — English Worksheet (Beginner)

Topic: Conveyor & Collector — Touch, Pay, Destroy · **Course:** Tycoon Engineer · **Level:** Beginner ·

Time: about 30 minutes

This week ore rides a **conveyor** into a **collector pad**. The pad uses **Touched** to check the part's name, pay cash, and destroy the ore.

1 · Predict 🧠

Read the script. Before you imagine running it in Roblox Studio, circle or write your answer.

```
collector.Touched:Connect(function(otherPart)
    if otherPart.Name == "Ore" then
        cash.Value += 5
    end
end)
```

A part named **Ore** touches the pad. Does the cash go up? Circle one: yes · no

Why?

```
collector.Touched:Connect(function(otherPart)
    if otherPart.Name == "Ore" then
        cash.Value += 5
    end
end)
```

Now a part named **Rock** touches the pad. Does the cash go up? Circle one: yes · no

2 · Find the Difference 🦁

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The ores are named `Ore` with a **capital O**. The pad should pay for them.

```
-- clean
if otherPart.Name == "Ore" then
    cash.Value += 5
    otherPart:Destroy()
end
```

```
-- buggy
if otherPart.Name == "ore" then
    cash.Value += 5
    otherPart:Destroy()
end
```

What is wrong? Why does the buggy pad never pay?

Pair B — Each ore should pay **once** and then disappear.

```
-- clean
if otherPart.Name == "Ore" then
    cash.Value += 5
    otherPart:Destroy()
end
```

```
-- buggy
if otherPart.Name == "Ore" then
    cash.Value += 5
end
```

What is wrong?

3 · Fill the Gap

The pad should add 5 cash when an ore touches it. One symbol is missing. Fill it in using the word bank.

```
if otherPart.Name == "Ore" then
  cash.Value ____ 5
  otherPart:Destroy()
end
```

Word bank:  ·  · 

Write the missing symbol:

4 · Tell Me What You Built 📷

Now switch to Roblox Studio and open your tycoon. Build a conveyor that pushes ore into a collector pad that pays cash. When you finish, come back here.

Send a photo or video of an ore riding the conveyor and your cash going up, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

When an ore touches the pad, ...

My conveyor pushes the ore because ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while your tycoon runs. Talk like you are teaching a friend. Try to use these words: **Touched, conveyor, Destroy, cash.**

1. Press Play and show an ore riding your conveyor.
2. Show your cash going up when the ore touches the pad.
3. Say in your own words what `otherPart:Destroy()` does.

Write what you will say in your video. You can read from it while filming.
