

RB002 Week 5 — English Worksheet (Beginner)

Topic: Quest Items — Pick Up Crystals · **Course:** Story Quest · **Level:** Beginner · **Time:** about 30 minutes

This week your player picks up **quest items**. A crystal counts up when a player touches it, then disappears with `Destroy()`.

1 · Predict 🧠

Read the script. Before you imagine it running in Roblox Studio, circle or write your answer.

```
crystal.Touched:Connect(function(hit)
    local player = Players:GetPlayerFromCharacter(hit.Parent)
    if player then
        crystals.Value += 1
        crystal:Destroy()
    end
end)
```

A player touches the crystal. Does the counter go up? Circle one: yes · no

Why?

```
print("Crystals: " .. 3)
```

Does this print `Crystals: 3`? Circle one: yes · no

2 · Find the Difference 🦎

Each pair shows a clean script first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The label should show the count, like `Crystals: 4`.

```
-- clean
label.Text = "Crystals: " .. crystals.Value
```

```
-- buggy
label.Text = "Crystals: " + crystals.Value
```

What is wrong? Which symbol joins text in Luau?

Pair B — The crystal should **disappear** after the player picks it up.

```
-- clean
if player then
    crystals.Value += 1
    crystal:Destroy()
end
```

```
-- buggy
if player then
    crystals.Value += 1
end
```

What is wrong? What happens to the crystal in the buggy version?

3 · Fill the Gap

The label should show the count. One symbol is missing. Fill it in using the word bank.

```
label.Text = "Crystals: " ____ crystals.Value
```

Word bank:  ·  · 

Write the missing symbol:

4 · Tell Me What You Built 📷

Now open your Story Quest game in Roblox Studio. Build 3 crystals that players can pick up, with a counter. When you finish, come back here.

Send a photo or video of your crystals, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My crystal script uses **Touched** when ...

The counter went up when ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you play your game in Studio. Talk like you are teaching a friend. Try to use these words: **Touched**, **counter**, **Destroy**.

1. Show your crystals, then press Play.
2. Pick up one crystal and show the counter going up.
3. Say in your own words what `Destroy()` does.

Write what you will say in your video. You can read from it while filming.
