

M001 Week 1 — English Worksheet (Beginner)

Topic: First Hello with the Agent · **Course:** Pyramid Problems · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
move forward
place block down
```

How many blocks does the agent place? Circle one: 0 · 1 · 2

Where does the block land?

```
turn right
move forward
```

Does the agent move in the direction it started facing? Circle one: yes · no

Why?

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should place a block, then move forward, then place another block.

```
# clean
place block down
move forward
place block down
```

```
# buggy
place block down
place block down
move forward
```

What is wrong?

Pair B — The agent should turn right **first**, then walk 2 steps.

```
# clean
turn right
move forward
move forward
```

```
# buggy
move forward
move forward
turn right
```

What is wrong?

3 · Fill the Gap

The agent should place 2 blocks **side by side** in a line. One line is missing. Fill it in using the word bank.

```
place block down
```

```
_____
```

```
place block down
```

Word bank: move forward · move up by 1 · turn right

Write the missing line:

4 · Tell Me What You Built 📷

Now switch to your homework world. Build a **4-block straight path** by moving and placing one block at a time. When you finish, come back here.

Send a photo or video of your path, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

First, I told the agent to ...

My favourite command was ...

The hardest part was ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) and show your path. Talk like you are teaching a friend. Try to use these words: **agent**, **place**, **move**, **block**.

1. Show the agent and the path it built.
2. Read your commands out loud.
3. Say which command you used the most.

Write what you will say in your video. You can read from it while filming.
