

M002 Week 4 — English Worksheet (Beginner)

Topic: AND and OR Conditions — Smarter Decisions · **Course:** Maze Madness · **Level:** Beginner ·

Time: about 30 minutes

Last week your agent used **AND** (both true). This week you add **OR**:

- **AND** → the action happens **only when both** are true.
- **OR** → the action happens **when at least one** is true.

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
if wall ahead AND wall on right:
    turn left
```

Wall ahead, but the right is open. Does the agent turn? Circle one: yes · no

```
if no wall ahead OR no wall below:
    move forward
```

The path ahead is blocked, but the path below is open. Does the agent move? Circle one: yes · no

Why?

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should turn left **only** at a corner (wall ahead AND wall on right).

```
# clean
if wall ahead AND wall on right:
    turn left
```

```
# buggy
if wall ahead OR wall on right:
    turn left
```

What is wrong? When does the buggy agent turn too often?

Pair B — The agent should move when **either** path is clear.

```
# clean
if no wall ahead OR no wall below:
    move forward
```

```
# buggy
if no wall ahead AND no wall below:
    move forward
```

What is wrong? When does the buggy agent get stuck?

3 · Fill the Gap

The agent should move when **at least one** path is open. One word is missing. Fill it in using the word bank.

```
if no wall ahead ____ no wall below:  
    move forward
```

Word bank: OR · AND · NOT

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your homework world. Solve the maze using an **OR** condition. When you finish, come back here.

Send a photo or video of the agent reaching the end, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I used **OR** when ...

One tricky moment was when ...

To fix it, I ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while the agent runs the maze. Talk like you are teaching a friend. Try to use these words: **AND**, **OR**, **both**, **either**.

1. Show the start of the maze, then run your code.
2. Read your `if ... OR ...` line out loud.
3. Say in your own words how **AND** is different from **OR**.

Write what you will say in your video. You can read from it while filming.
