

M002 Week 1 — Word Practice

Course: Maze Madness · **Time:** about 15 minutes

These are this week's words from the while-loop maze. For each one: read the meaning, read the tiny example, then use it in your own sentence.

while

keep doing something as long as a condition is true Example: While there is no wall, the agent keeps moving.

Your sentence:

loop

code that repeats Example: A loop runs the same step again and again.

Your sentence:

detect

to notice or find something Example: The agent can detect a wall right in front of it.

Your sentence:

wall

a block that stops the agent Example: The agent stops when it reaches a wall.

Your sentence:

forward

toward the front — the way you are facing Example: Move forward one step at a time.

Your sentence:
