

RB005 Week 4 — English Worksheet (Beginner)

Topic: Game Feel — Juice with Tweens and Sound · **Course:** Dream Game Studio · **Level:** Beginner ·

Time: about 30 minutes

Juice is the little touches that make a game feel alive: smooth movement and sound. This week you add a **tween** and a **sound** to your game.

1 · Predict

Read the code. Before you run it in Studio, circle or write your answer.

```
local TweenService = game:GetService("TweenService")
local door = workspace.Door

local info = TweenInfo.new(0.5)
local tween = TweenService:Create(door, info, {Position = door.Position +
Vector3.new(0, 6, 0)})
tween:Play()
```

Does the door move? Circle one: yes · no

Why?

```
local TweenService = game:GetService("TweenService")
local door = workspace.Door

local info = TweenInfo.new(0.5)
local tween = TweenService:Create(door, info, {Position = door.Position +
Vector3.new(0, 6, 0)})
```

This script never calls `tween:Play()` . Does the door move? Circle one: yes · no

2 · Find the Difference 🐉

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The door should slide up smoothly.

```
-- clean
local tween = TweenService:Create(door, info, {Position = door.Position +
Vector3.new(0, 6, 0)})
tween:Play()
```

```
-- buggy
local tween = TweenService:Create(door, info, {Position = door.Position +
Vector3.new(0, 6, 0)})
```

What is missing? What does the buggy door do?

Pair B — The fade should take **half a second**.

```
-- clean
local info = TweenInfo.new(0.5)
```

```
-- buggy
local info = TweenInfo.new(500)
```

What is wrong? How long does the buggy fade take?

3 · Fill the Gap

The tween is created but it still needs to start. One word is missing. Fill it in using the word bank.

```
local tween = TweenService:Create(door, info, {Transparency = 1})  
tween:____()
```

Word bank: Play · Go · Start

Write the missing word:

4 · Tell Me What You Built 📷

Now open your game and add **one tween** and **one sound** to a moment that matters (winning, picking up, opening a door). When it works, come back here.

Send a photo or video of the juicy moment, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I added a tween to ...

My sound plays when ...

Before the juice, that moment felt ... Now it feels ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while your game runs. Talk like you are teaching a friend. Try to use these words: **tween**, **sound**, **juice**.

1. Trigger your juicy moment and show the tween.
2. Read your TweenInfo time out loud.
3. Say in your own words what **juice** adds to a game.

Write what you will say in your video. You can read from it while filming.
