

M003 Week 5 — English Worksheet (Beginner)

Topic: Recreate the Statues (x, y, z) · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

A statue is just blocks **stacked up**. A little body, then a head on top. Every block needs **three** numbers: **(x, y, z)**. x is **across**, y is **up**, z is **forward**. To go higher, change the **2nd number (y)**.

🕒 Every coordinate is (x, y, z)

1st = X

across →

2nd = Y

up ↑ (height)

3rd = Z

forward ↗

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict 🧠

Read the steps. Look at the numbers. Then answer.

```
place gray block at (3, 0, 3)
place gray block at (3, 1, 3)
place gray block at (3, 2, 3)
```

Across, up, or deeper? Circle one. Which number changes?

```
place gray block at (3, 0, 3)
place gray block at (4, 0, 3)
```

Across, up, or deeper? Circle one. Which number changes?

2 · Find the Difference 🐛

One block is good. One is broken. Find what is different.

Pair A — The body should **stack up**, so the **2nd number (y)** must grow.

```
# clean – the body stacks up  
place gray block at (3, 0, 3)  
place gray block at (3, 1, 3)
```

```
# buggy – nothing stacks  
place gray block at (3, 0, 3)  
place gray block at (3, 0, 3)
```

The buggy one stays low. Which number must change to go up?

Pair B — The head should sit **on top**, so its **2nd number (y)** must be bigger.

```
# clean – head on top  
place gray block at (3, 1, 3)  
place white block at (3, 2, 3)
```

```
# buggy – head inside the body  
place gray block at (3, 1, 3)  
place white block at (3, 1, 3)
```

Both blocks are at the same spot in the buggy one. Which number is wrong?

3 · Fill the Gap

This builds a tiny statue: a 3-tall body, then a head on top. Fill the blank **y** so the head sits **above** the body.

```
place gray block at (3, 0, 3)
place gray block at (3, 1, 3)
place gray block at (3, 2, 3)
place white block at (3, ____, 3)
```

Word bank: 3 · 2 · 0

Write the missing number:

4 · Tell Me What You Built 📷

Warm-up: in your world, place 2 gray blocks on top of each other — a little body.

Now build a small statue. Stack 3 gray blocks for the body, then 1 white block on top for the head.

 Recipe (stand on your home spot first): - body: gray at (3, 0, 3), then (3, 1, 3), then (3, 2, 3) - head: white at (3, 3, 3)

Send a **photo or video**, then write 2 or 3 sentences.

I built a statue with a body and a ...

To go up I changed the ... number.

My head sits at $(x = \dots, y = \dots, z = \dots)$.

5 · Record Your Walkthrough 🎥

Take a short video of your statue. Try to use these words: **x, y, z, up, head, home spot**.

1. Show your home spot and stand on it.
2. Point at the body and read one block: "x ..., y ..., z ...".
3. Point at the head and say which number made it go up.

Write what you will say in your video. You can read from it while filming.
