

M003 Week 6 — English Worksheet (Beginner)

Topic: Recreate the Ender Dragon (x, y, z) · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

A big blocky **ender dragon** stands in your world. It is made of black blocks with purple eyes. The body is one long box. The head is a block at the front. Today you build a **small** dragon: a short body and a head. Every block needs **three** numbers — (**x, y, z**). x is **across**, y is **up**, z is **forward** (deep).

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict 🧠

Read each code. Write what you will see.

```
fill black from (0, 4, 0) to (0, 4, 5)
```

Only z changes. Does the body go across, up, or deeper? Circle one. Which number changes?

```
place black block at (0, 5, 6)
```

This is the head. Which number is the height? Is the head higher or lower than the body?

2 · Find the Difference 🐉

Look at each pair. One is correct. One is broken.

Pair 1 — make a long body along z.

```
# correct
fill black from (0, 4, 0) to (0, 4, 5)
```

```
# broken
fill black from (0, 4, 0) to (0, 4, 0)
```

Why is the broken one wrong? One sentence.

Pair 2 — put the head at the front, up high.

```
# correct
place black block at (0, 5, 6)
```

```
# broken
place black block at (0, 5)
```

Why is the broken one wrong? One sentence.

3 · Fill the Gap

This code makes a short body, then a head at the front. Fill the blanks.

```
fill black from (0, 4, 0) to (0, 4, __)  
place black block at (0, __, 6)
```

Word bank: 5 · 5

Write the two numbers.

4 · Tell Me What You Built 📷

First, build this tiny body on your home spot:

```
fill black from (0, 4, 0) to (0, 4, 3)
```

Now look at the dragon in your world. Build a **body and a head**: make a short black box for the body, then place a black block at the front for the head. Add two **purple** blocks for eyes if you like.

Send a photo or video. Then finish these — 2 or 3 sentences.

I built the dragon's ...

My body goes deeper, so I changed the ... number.

My head block is at (x = ..., y = ..., z = ...).

5 · Record Your Walkthrough 🎥

Film yourself showing your small dragon. Try to use these words: **x, y, z, body, head, home spot.**

1. Show your home spot. Why stand on it every time?
2. Point at the body. Say which number made it long.
3. Point at the head. Say its three numbers out loud.

Plan what you will say:
