

▲ M000 · First Pyramid — English Worksheet (Beginner)

Topic: First Pyramid · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

The agent walks around a **square** and drops blocks as it walks. Stack squares that get **smaller** and you get a pyramid.

1 · Predict 🧠

Read the steps. Circle your answer.

```
set f to 4
place on move ON
repeat 4 times:
  move forward by f
  turn left
```

What shape does the agent draw? Circle one: line · square · circle

How many sides does it draw? Circle one: 1 · 3 · 4

```
set f to 5
repeat 3 times:
  [draw one square]
  move up by 1
  change f by -2
```

The sides go 5, then ..., then ... Circle one: 5 · 3 · 1 → 5 · 4 · 3

Which square is biggest? Circle one: bottom · top

2 · Find the Difference 🐛

Clean steps first, then a buggy version. Circle the bug.

Pair A — Should draw a closed **square**.

```
# clean
place on move ON
repeat 4 times:
  move forward by f
  turn left
```

```
# buggy
place on move ON
repeat 4 times:
  move forward by f
```

What is wrong? Circle one: it draws a straight line · it draws a square · it draws a circle

Pair B — Each new layer should be **2 smaller** than the one below.

```
# clean
[draw one square]
move up by 1
change f by -2
```

```
# buggy
[draw one square]
move up by 1
change f by 2
```

What is wrong? The buggy tower gets... Circle one: bigger going up · smaller going up

3 · Fill the Gap

Each square must sit one block **higher** than the last. Fill the missing line.

```
set f to 5
repeat 3 times:
  [draw one square]
  _____
  change f by -2
```

Missing line? Circle one: move up by 1 · move down by 1 · turn left

4 · Show Your Work 📷 🎥

Switch to your homework world. Run `pyra` to build a pyramid — if it gets stuck, `1` turns left, `r` turns right, `r1` brings it back.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.
