

M000 · Square Floors — English Worksheet (Beginner)

Topic: Square Floors (Nested Loops) · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

A **nested loop** is a loop inside another loop. The inner loop builds one side; the outer loop repeats it for every side.

1 · Predict 🧠

Read the steps. Circle your answer.

```
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

What shape does this make on the ground? Circle one: line · square · tower

How many sides? Circle one: 3 · 4 · 5

```
repeat 3 times:
  place block down
  move forward
```

This is only the inner loop. What does it build? Circle one: one side · a whole square

2 · Find the Difference 🐛

Clean steps first, then a buggy version. Circle the bug.

Pair A — Should build a square: 4 sides, turning after each side.

```
# clean
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

```
# buggy
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

What is wrong? Circle one: it turns after every block · it never turns · it turns only once

Pair B — Should build a square with a nested loop, not just one line.

```
# clean
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

```
# buggy
repeat 3 times:
  place block down
  move forward
turn right
```

What is wrong? Circle one: it builds only one side · it builds the whole square · it builds two squares

3 · Fill the Gap

Build a square. After each side, it must turn. Fill the missing line.

```
repeat 4 times:  
  repeat 3 times:  
    place block down  
    move forward  
  _____
```

Missing line? Circle one: turn right · move up by 1 · place block down

4 · Show Your Work 📷 🎥

Switch to your homework world. Build a **4×4 square floor** using a nested loop.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.
