

## M000 · Building a Well — English Worksheet (Beginner)

**Topic:** Building a Well · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

### 1 · Predict 🧠

Read the steps. Circle your answer.

```
repeat 2 times:
  destroy block down
  move down by 1
```

**Does the agent build up or dig down? Circle one:** build up · dig down

**How deep is the hole? Circle one:** 2 blocks deep · 5 blocks deep · 1 block deep

```
repeat 4 times:
  repeat 3 times:
    place block down
    move forward
  turn right
```

**What shape does this make on the ground? Circle one:** line · square · hole

## 2 · Find the Difference 🐛

Clean steps first, then a broken version. Circle the bug.

**Pair A** — The agent should dig down 3 blocks. After each **destroy**, it must move down into the hole.

```
# clean
repeat 3 times:
  destroy block down
  move down by 1
```

```
# buggy
repeat 3 times:
  destroy block down
```

**What is wrong? Circle one:** the move down is missing · a destroy is missing · it builds up

**Pair B** — The agent should build the square wall **first**, then dig.

```
# clean
[build square wall]
[dig down]
```

```
# buggy
[dig down]
[build square wall]
```

**What is wrong? Circle one:** it digs before building the wall · it builds two walls · it never digs

---

### 3 · Fill the Gap

The agent should dig a hole 2 blocks deep. One line is missing.

```
destroy block down  
move down by 1  
_____  
move down by 1
```

**Which line is missing? Circle one:** destroy block down · place block down · move forward

---

## 4 · Show Your Work 📷 🎥

Switch to your homework world. Build a **small well** — a square wall on top, and a hole **2 or 3 blocks deep** inside it.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

**1 · Your code.** Scroll through it. Say what each part does.

**2 · Your build.** Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built \_\_\_\_\_.

I built it using this code: \_\_\_\_\_.

In this code I used \_\_\_\_\_.

The hardest part was \_\_\_\_\_.

That part was hard because \_\_\_\_\_.

The most fun part was \_\_\_\_\_.

Something new I learned was \_\_\_\_\_.
