

Builder Basics · Farm House — English Worksheet (Beginner)

Topic: Farm House (House + Adjacent Farm) · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Circle your answer.

```
# Stage 1
[build house walls]
# Stage 2
walk to the spot beside the house
# Stage 3
[build farm patch]
```

How many stages are there? Circle one: 1 · 2 · 3

Why does the agent walk to a new spot first? Circle one: so the farm is not on the house · to dig a hole · to go home

```
turn right
repeat 4 times:
  move forward
```

Does the agent build anything here? Circle one: yes · no

What is it doing instead? Circle one: walking to a new spot · placing blocks · digging down

2 · Find the Difference 🐛

Clean steps first, then a broken version. Circle the bug.

Pair A — The agent should build the house **first**, then the farm.

```
# clean
[build house]
[walk to next spot]
[build farm patch]
```

```
# buggy
[build farm patch]
[walk to next spot]
[build house]
```

What is wrong? Circle one: the farm is built before the house · the house is missing · nothing is built

Pair B — The farm must land on the **ground**, so the agent has to come down from the house first.

```
# clean
move down by 2
[walk to next spot]
[build farm patch]
```

```
# buggy
[walk to next spot]
[build farm patch]
move down by 2
```

What is wrong? Circle one: it comes down after building, not before · it never builds · it digs a hole

3 · Fill the Gap

After the house, the agent must **walk over** before building the farm. One line is missing.

```
[build house]
turn right
_____
[build farm patch]
```

Which line is missing? Circle one: repeat 4 times: move forward · move up by 4 · destroy block down

4 · Show Your Work 📷 🎥

Switch to your homework world. Build a **small house** and a **small farm patch beside it**.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.
