

Builder Basics · House Walls — English Worksheet (Beginner)

Topic: House Walls (No Roof) · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Circle your answer.

```
repeat 5 times:  
  place block down  
  move forward
```

Is this lying flat on the ground or standing up tall? Circle one: flat · tall

What is it? Circle one: a wall on the ground · a tower

```
repeat 5 times:  
  place block down  
  move up by 1
```

Is this lying flat on the ground or standing up tall? Circle one: flat · tall

How tall is it? Circle one: 5 blocks tall · 1 block tall · 3 blocks tall

2 · Find the Difference 🐛

Clean steps first, then a broken version. Circle the bug.

Pair A — The agent should build a wall **5 blocks long** on the ground.

```
# clean
repeat 5 times:
  place block down
  move forward
```

```
# buggy
repeat 4 times:
  place block down
  move forward
```

What is wrong? Circle one: only 4 blocks, not 5 · one block too many · a wrong turn

Pair B — The agent should build a wall going **up**, not along the ground.

```
# clean
repeat 5 times:
  place block down
  move up by 1
```

```
# buggy
repeat 5 times:
  place block down
  move forward
```

What is wrong? Circle one: it goes along the ground, not up · it goes up, not along · a block is missing

3 · Fill the Gap

The agent should build one wall, then turn, then build a second wall. One line is missing.

```
repeat 5 times:  
  place block down  
  move forward
```

```
repeat 5 times:  
  place block down  
  move forward
```

Which line is missing? Circle one: turn right · move up by 1 · place block down

4 · Show Your Work 📷 🎥

Switch to your homework world. Build **one wall** for your house — about 5 blocks long and 3 blocks tall.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.
