

Maze Madness · Turning (Intermediate)

Topic: Turn at Walls · **Course:** Maze Madness · **Level:** Intermediate · **Time:** about 35 minutes

The rule: wall ahead, turn. No wall, move forward.

1 · Trace It 🤖

```
keep doing forever:
  if wall ahead:
    turn right
  otherwise:
    move forward
```

Say what the agent does over and over.

2 · Fill the Code

Checks a wall, then turns. Fill the two blanks.

```
if agent.detect(BLOCK, _____):  
    agent.turn(RIGHT_TURN)  
else:  
    agent.move(_____, 1)
```

Word bank: FORWARD · RIGHT_TURN · LEFT

3 · Spot the Bug 🐛

Turn and move should be in different branches.

```
# buggy
if agent.detect(BLOCK, FORWARD):
    agent.turn(RIGHT_TURN)
    agent.move(FORWARD, 1)
```

What is wrong?

4 · Write It 📝

Wall ahead? Turn left. No wall? Move forward 1.

Write 2 lines.

5 · Show Your Work 📷 🎥

Open your homework world. Use `if` / `else` to turn at walls. Get the agent out.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Fill the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.

Write your lines here, then say them in your video.
