

3D Coordinates Extension — English Worksheet (Beginner)

Topic: Finish the Burger (x, y) · **Course:** 3D Coordinates · **Level:** Extension (Beginner, after Lesson 3) ·

Time: about 30 minutes

Open the world. One burger is **finished**. One is only **started** — it has a bottom bun and a tomato, nothing else.

Your job: **finish it**. Every block sits at (x, y) — x is how far **across**, y is how far **up**.

● Put a **red block at your feet** before you start. That is your **home spot**. Stand on it every run, or the burger moves too.

 **On the wall now — bottom bun · tomato**

1 · Predict

Read the steps. Circle your answer.

```
place red block at (2, 4)
place red block at (3, 4)
place red block at (4, 4)
```

A line across or up? Circle one: across · up

Which number stays the same? Circle one: $x \cdot y$

place brown block at (8, 9)

place brown block at (8, 10)

Across or up? Circle one: across · up

Which number changes? Circle one: $x \cdot y$

2 · Spot the Bug 🐛

This code is broken. Read what it should do, then fill in the fix.

Bug — The yellow cheese belongs **above** the lettuce, at **y = 8**. This block lands on the tomato at **y = 4**.

```
place yellow block at (2, 4)
```

Hint: y is **up**. A bigger y is higher on the wall.

Fill the blank to fix the line:

```
place yellow block at (2, __)
```

Which number fills the blank? Circle one: 4 · 8

Why was the code wrong? Circle one: the y was too low · the colour was wrong

3 · Show Your Work 📷 🎥

Stand on your **home spot** (the red block).

Warm up first. Build **one row** — the cheese. It is yellow, at **y = 8**, from **x = 2** to **x = 14**.

Now finish the burger. Copy every missing row from the picture, reading each square's (x, y).

🍔 **The finished burger** — bun · gold, patty · brown, cheese · yellow, lettuce · green, tomato · red, crust · black

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

The first thing I did was count from left to right. The first number was _____ and the last was _____. This is the **x** axis.

The second thing I did was count down and up. The first number was _____ and the last was _____. This is the **y** axis.

The hardest thing was building the _____.

It was hard because _____.

I think the burger looks _____.

The most fun part was _____.

Something new I learned was _____.
