

3D Coordinates · Recreate the Statues (x, y, z) — English Worksheet (Beginner)

Topic: Recreate the Statues (x, y, z) · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

A statue is blocks **stacked up** — a body, then a head on top. Every block needs **three** numbers: (x, y, z).

 Every coordinate is (x, y, z)

1st = X
across →

2nd = Y
up ↑ (height)

3rd = Z
forward ↗

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict

Read the blocks. Circle your answer.

```
place gray block at (3, 0, 3)
place gray block at (3, 1, 3)
place gray block at (3, 2, 3)
```

Across, up, or deeper? Circle one: across · up · deeper

Which number changes? Circle one: x · y · z

```
place gray block at (3, 0, 3)
place gray block at (4, 0, 3)
```

Across, up, or deeper? Circle one: across · up · deeper

Which number changes? Circle one: x · y · z

2 · Spot the Bug 🐛

The head should sit **on top** of the body — the **2nd number (y)** must be **bigger**. Here the head uses the **same y** as the body, so it hides inside.

```
# buggy – head inside the body  
place gray block at (3, 1, 3)  
place white block at (3, 1, 3)
```

Fix it. The body is at $y = 1$, so the head must go one higher.

```
# fixed  
place gray block at (3, 1, 3)  
place white block at (3, ____, 3)
```

Which number is missing? Circle one: 0 · 1 · 2

Why was the buggy one wrong? Circle one: the head used the same y · the color was wrong

3 · Show Your Work 📷 🎥

Warm-up: in your world, place 2 gray blocks on top of each other — a little body.

Build a small statue. Stack 3 gray blocks for the body, then 1 white block on top for the head.

🧱 Recipe (stand on your home spot first, feet on the ground $y = 0$): - body: gray at (3, 0, 3), then (3, 1, 3), then (3, 2, 3) - head: white at (3, 3, 3)

If you finish early, try the big one: make the body taller.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.
