

3D Coordinates · Recreate the Statues (x, y, z) — English Worksheet (Intermediate)

Topic: Recreate the Statues (x, y, z) · **Course:** 3D Coordinates · **Level:** Intermediate · **Time:** about 40 minutes

A statue is **stacked fill boxes**. One **fill** makes a solid box between **two corners** (x, y, z) — to stack one **on top**, start its **y** where the box below stopped; feet sit on the **ground (y = 0)**.

● Stand on your **home spot** (red block) every run. Move your feet, move your head.

1 · Predict

Read each box. Write a sentence about what you will see.

```
fill GRAY from (3, 0, 3) to (5, 1, 5)
```

How wide (x) and deep (z) is this base? How tall (y) is it?

```
fill GRAY from (3, 2, 3) to (5, 5, 5)
```

This body starts at y = 2 — right on top of the base. Is it taller or shorter than the base?

```
fill WHITE from (3, 6, 3) to (5, 7, 5)
```

This box starts at $y = 6$. Is it near the bottom or the top of the statue?

2 · Spot the Bug 🐛

Each block is broken. Read what it should do, write the fixed code, then explain.

Bug A — The body should sit **on top** of the base. The base stops at $y = 1$, so the body should start at $y = 2$. Right now it uses the **same y** as the base, so nothing stacks up.

```
fill GRAY from (3, 0, 3) to (5, 1, 5)
fill GRAY from (3, 0, 3) to (5, 4, 5)
```

Hint: the **2nd number (y)** is height. Where should the body's bottom y be?

Write the fixed code:

Why was it wrong? Why does your fix work? (1–2 sentences.)

Bug B — This should be the **head**, a box on top of the body at $y = 6$ – 7 . Right now both corners use **y = 6**, so it is a flat slab with no height.

```
fill WHITE from (3, 6, 3) to (5, 6, 5)
```

Hint: check the **2nd column (y)** in both corners.

Write the fixed code:

Why was it wrong? Why does your fix work? (1–2 sentences.)

3 · Show Your Work 📷 🎥

Walk around a statue in your world, then build your own on your home spot. It is **3 fill boxes**: a base (legs), a body, and a head.

📊 Recipe (every corner is **(x, y, z)**, feet on the ground $y = 0$): - base / legs: gray from (3, 0, 3) to (5, 1, 5) - body: gray from (3, 2, 3) to (5, 5, 5) - head: white from (3, 6, 3) to (5, 7, 5)

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Fill the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.

Write your lines here, then say them in your video.
