

Functions & Games · Auto-Building Spaces — Loops + Functions + Chat Commands — English Worksheet (Beginner)

Topic: Auto-Building Spaces — Loops + Functions + Chat Commands · **Course:** Functions & Games ·

Level: Beginner · **Time:** about 30 minutes

This lesson one chat command builds a **whole space by itself**. A loop repeats a room piece, and the **number** you type decides how big it grows.

1 · Predict

```
on chat command "dungeon" with number rooms:
  repeat rooms times:
    build_room()
    move forward 6
```

You type **dungeon 3** . Does it build 3 rooms? Circle one: yes · no

Why? Circle one: repeat runs **rooms** , which is 3 · repeat runs 1 time

```
on chat command "dungeon" with number rooms:
  repeat rooms times:
    build_room()
    move forward 6
```

You type **dungeon 1** . Does it build 3 rooms? Circle one: yes · no

2 · Find the Difference 🐛

Pair A — The rooms should sit in a row, not on top of each other.

```
# clean
repeat rooms times:
  build_room()
  move forward 6
```

```
# buggy
repeat rooms times:
  build_room()
```

What is wrong? Circle one: no move, rooms stack in one spot · rooms spread out

Pair B — The number you type should decide how many rooms get built.

```
# clean
repeat rooms times:
  build_room()
  move forward 6
```

```
# buggy
repeat 1 times:
  build_room()
  move forward 6
```

What is wrong? Circle one: uses 1 not rooms · uses rooms not 1

3 · Fill the Gap

One word is missing.

```
on chat command "dungeon" with number rooms:
  repeat ____ times:
    build_room()
    move forward 6
```

Fill the gap. Circle one: rooms · dungeon · forward

4 · Show Your Work 📷 🎥

Switch to your homework world. Make a chat command with a number that auto-builds a space.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built ____.

I built it using this code: ____.

In this code I used ____.

The hardest part was ____.

That part was hard because ____.

The most fun part was ____.

Something new I learned was ____.
