

Pyramid Problems · Variables — English Worksheet (Beginner)

Topic: Variables · **Course:** Pyramid Problems · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Circle your answer.

```
set size to 3
repeat size times:
  place block down
  move forward
```

How many blocks does the agent place? Circle one: 1 · 3 · 6

Where does the 3 come from? Circle one: the size variable · the block · the move

```
set size to 6
repeat size times:
  place block down
  move forward
```

New number. How many blocks now? Circle one: 3 · 6 · 12

2 · Find the Difference 🐛

Clean steps first, then a buggy version. Circle the bug.

Pair A — Should place a row of **size** blocks (size is 5).

```
# clean
set size to 5
repeat size times:
  place block down
  move forward
```

```
# buggy
set size to 5
repeat 3 times:
  place block down
  move forward
```

What is wrong? Circle one: the loop uses 3, not size (5) · the loop uses 5 · the loop never runs

Pair B — Should build a **tower** that is **height** blocks tall.

```
# clean
set height to 4
repeat height times:
  place block down
  move up by 1
```

```
# buggy
set height to 4
repeat height times:
  place block down
  move forward
```

What is wrong? Circle one: it builds a flat row, not a tower · it builds a taller tower · nothing happens

3 · Fill the Gap

Build a row of 4 blocks using a variable. Fill the missing line.

```
_____  
repeat size times:  
  place block down  
  move forward
```

Missing line? Circle one: set size to 4 · move forward · repeat 4 times

4 · Show Your Work 📷 🎥

Switch to your homework world and use a `size` variable to build a **size-3 wall**. Then change the variable to **6** and run it again.

Record **one video** — one take, no stopping (a phone is fine). Show these in order:

1 · Your code. Scroll through it. Say what each part does.

2 · Your build. Point the camera. Name the parts.

Say these out loud, filling in the blanks:

Today I built _____.

I built it using this code: _____.

In this code I used _____.

The hardest part was _____.

That part was hard because _____.

The most fun part was _____.

Something new I learned was _____.
