

RB002 Week 4 — English Worksheet (Beginner)

Topic: Branching Dialogue — if / elseif / else · **Course:** Story Quest · **Level:** Beginner · **Time:** about 30 minutes

This week your NPC remembers the story. A **boolean** like `questAccepted` holds the quest state, and `if / else` picks **one** reply.

1 · Predict 🧠

Read the script. Before you imagine running it, circle or write your answer.

```
local questAccepted = false

if questAccepted then
    print("Good luck, hero!")
else
    print("Will you help me?")
end
```

Does it print `Good luck, hero!` ? Circle one: yes · no

Why?

```
local questAccepted = true

if questAccepted then
    print("Good luck, hero!")
else
    print("Will you help me?")
end
```

Now the boolean is true. Does it print `Good luck, hero!` ? Circle one: yes · no

2 · Find the Difference 🐉

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The NPC should say only **one** line each talk.

```
-- clean
if questAccepted then
    print("Good luck, hero!")
else
    print("Will you help me?")
end
```

```
-- buggy
if questAccepted then
    print("Good luck, hero!")
end
print("Will you help me?")
```

What is wrong? When does the buggy question print?

Pair B — The second talk should be different from the first talk.

```
-- clean
if questAccepted then
    print("Did you find my cat yet?")
else
    print("Will you help me?")
    questAccepted = true
end
```

```
-- buggy
if questAccepted then
    print("Did you find my cat yet?")
else
    print("Will you help me?")
end
```

What is wrong? Which line is missing?

3 · Fill the Gap

The NPC should say one line when the quest is accepted, and a different line when it is not. One word is missing. Fill it in using the word bank.

```
if questAccepted then
  print("Good luck, hero!")
  _____
  print("Will you help me?")
end
```

Word bank: else · end · print

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your own quest world. Give your NPC two replies with `if / else` so the reply changes after you accept the quest. When you finish, come back here.

Send a photo or video of the dialogue changing, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My NPC says ... the first time I talk.

After I accept the quest, my NPC says ...

One tricky moment was when ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) while you talk to your NPC two times. Talk like you are teaching a friend. Try to use these words: **if**, **else**, **boolean**.

1. Press E the first time and show the NPC's first reply.
2. Press E again and show that the reply changed.
3. Say in your own words why only **one** line prints each time.

Write what you will say in your video. You can read from it while filming.
