

M000 Week 3 — English Worksheet (Beginner)

Topic: Bridge Building · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
repeat 3 times:  
  place block down  
  move forward
```

How many blocks does the agent place? Circle one: 1 · 3 · 6

What does it look like — a line, a tower, or a square?

```
repeat 5 times:  
  place block down  
  move forward
```

The gap is 5 blocks wide. Does the bridge reach the other side? Circle one: yes · no

How do you know?

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should build a bridge **4 blocks long**.

```
# clean
repeat 4 times:
  place block down
  move forward
```

```
# buggy
repeat 3 times:
  place block down
  move forward
```

What is wrong?

Pair B — The blocks should land in a line, next to each other.

```
# clean
repeat 4 times:
  place block down
  move forward
```

```
# buggy
repeat 4 times:
  place block down
  move up by 1
```

What is wrong?

3 · Fill the Gap

The agent should build a bridge **6 blocks long** using a loop. One part is missing. Fill it in using the word bank.

```
repeat ____ times:  
    place block down  
    move forward
```

Word bank: 3 · 6 · 10

Write the missing number:

4 · Tell Me What You Built 📷

Now switch to your homework world. Build a **bridge across the river** using a loop. When you finish, come back here.

Send a photo or video of your bridge, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I used a loop to ...

My bridge is ... blocks long.

The hardest part was ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) and walk the camera across your bridge. Talk like you are teaching a friend. Try to use these words: **loop**, **repeat**, **block**, **bridge**.

1. Show one end of the bridge and walk across it.
2. Read your loop out loud.
3. Say how many blocks long your bridge is.

Write what you will say in your video. You can read from it while filming.
