

M003 Week 6 — English Worksheet (Beginner)

Topic: Building Things in 3D — Boxes & Rooms · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

This week one command builds a whole box. `fill` takes **two corners** — each one a full `(x, y, z)` — and fills everything between them. Remember: **y is height**. Fill with **air** to hollow out the inside and make a room.

1 · Predict 🧠

Read the steps. Before you imagine it happening, circle or write your answer.

```
fill stone from (0, 0, 0) to (4, 3, 4)
```

Is the box full of stone all the way through? Circle one: yes · no

Why?

```
fill stone from (0, 0, 0) to (4, 3, 4)
fill air from (1, 1, 1) to (3, 2, 3)
```

The second line fills the inside with air. Can you stand inside now? Circle one: yes · no

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — This should make a **room** you can stand inside.

```
# clean
fill stone from (0, 0, 0) to (4, 3, 4)
fill air from (1, 1, 1) to (3, 2, 3)
```

```
# buggy
fill stone from (0, 0, 0) to (4, 3, 4)
```

What is wrong? Why can't you go inside the buggy one?

Pair B — **fill** wants the **small** corner first, then the big corner.

```
# clean
fill stone from (0, 0, 0) to (4, 3, 4)
```

```
# buggy
fill stone from (4, 3, 4) to (0, 0, 0)
```

What is wrong?

3 · Fill the Gap

The room should be **empty inside**. One word is missing. Fill it in using the word bank.

```
fill stone from (0, 0, 0) to (4, 3, 4)
```

```
fill ____ from (1, 1, 1) to (3, 2, 3)
```

Word bank: air · stone · water

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your homework world. Build a **hollow room**: fill a stone box, then fill the inside with air. When you finish, come back here.

Send a photo or video of you standing inside your room, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My two corners were ...

To make it hollow, I ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you show your room in the world. Talk like you are teaching a friend. Try to use these words: **fill**, **corner**, **hollow**, **air**.

1. Show your room from outside, then walk inside it.
2. Point at one corner and say its coordinate out loud — all three numbers.
3. Say in your own words what **fill air** does.

Write what you will say in your video. You can read from it while filming.
