

RB005 Week 5 — English Worksheet (Beginner)

Topic: Menus & UI — Title Screens and Buttons · **Course:** Dream Game Studio · **Level:** Beginner ·

Time: about 30 minutes

This week your game gets a **title screen**. A **TextButton** says Play. When the player **clicks** it, **MouseButton1Click** fires and the menu disappears.

1 · Predict 🧠

Read the script. Before you imagine running it in Studio, circle or write your answer.

```
local button = script.Parent
local menuGui = button.Parent.Parent

button.MouseButton1Click:Connect(function()
    menuGui.Enabled = false
end)
```

The player clicks the Play button. Does the menu disappear? Circle one: yes · no

Why?

```
local button = script.Parent
local menuGui = button.Parent.Parent

button.MouseButton1Click:Connect(function()
    menuGui.Enabled = false
end)
```

Now the player only looks at the button and does NOT click. Does the menu disappear? Circle one: yes · no

2 · Find the Difference 🦁

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The menu should close when the player **clicks** the button.

```
-- clean
button.MouseButton1Click:Connect(function()
    menuGui.Enabled = false
end)
```

```
-- buggy
button.Touched:Connect(function()
    menuGui.Enabled = false
end)
```

What is wrong? Why does the buggy button do nothing?

Pair B — Clicking Play should make the menu **disappear**.

```
-- clean
button.MouseButton1Click:Connect(function()
    menuGui.Enabled = false
end)
```

```
-- buggy
button.MouseButton1Click:Connect(function()
    menuGui.Enabled = true
end)
```

What is wrong?

3 · Fill the Gap

The menu should close when the player clicks the button. One word is missing. Fill it in using the word bank.

```
button.____:Connect(function()  
    menuGui.Enabled = false  
end)
```

Word bank: MouseButton1Click · Touched · Text

Write the missing word:

4 · Tell Me What You Built 📷

Now open your own game in Studio. Build a title screen with a Play `TextButton` that closes the menu. When you finish, come back here.

Send a photo or video of your title screen, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My title screen shows ...

When the player clicks Play, ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you test your menu in Studio. Talk like you are teaching a friend. Try to use these words: **button**, **click**, **menu**, **Enabled**.

1. Show your title screen, then click Play.
2. Read your `MouseButton1Click` line out loud.
3. Say in your own words what happens when the button is clicked.

Write what you will say in your video. You can read from it while filming.
