

M000 Week 4 — English Worksheet

Topic: House Walls (No Roof) · **Course:** Builder Basics · **Time:** about 45 minutes

1 · Predict 🧠

Read each set of steps. Before you imagine the agent doing it, write what you think will happen.

```
repeat 10 times:
  place block down
  move forward
```

What does the agent build? Write one sentence.

```
repeat 10 times:
  place block down
  move up by 1
```

Is this a wall lying flat on the ground, or standing up tall? How tall?

```
repeat 10 times:
  repeat 10 times:
    place block down
    move up by 1
  move forward
```

What shape does the agent finish with? How many blocks in total?

2 · Spot the Bug 🐛

Each block of code below was meant to do something, but it is broken. Read what the code is **supposed** to do, then rewrite it so it works. After that, explain why the original was wrong and why your fix works.

Bug A — The agent is supposed to build a single wall that is **10 blocks long** on the ground.

```
repeat 9 times:
  place block down
  move forward
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug B — The agent is supposed to build **two walls** of a house: a wall 10 blocks long, then turn right, then another wall 10 blocks long.

```
repeat 10 times:
  place block down
  move forward
  turn right
  place block down
  move forward
```

Write the fixed code:

Why was it wrong? Why does your fix work?

Bug C — The agent is supposed to build a wall that is **10 blocks long AND 10 blocks tall** — a square of 100 blocks.

```
repeat 10 times:  
  place block down  
  move up by 1  
  move forward
```

Write the fixed code:

Why was it wrong? Why does your fix work?

3 · Tell Me What You Built 📷

Now switch to your homework world. Build your house with walls but **no roof yet** — at least 10 blocks long and 10 blocks tall, using two loops. When you finish, come back here.

Send a photo or video of your house, then explain what you did. Use these sentence starters — write 4 to 6 sentences total.

First, I ...

My first loop did ...

My second loop did ...

The hardest part was ...

To fix it, I ...

If I had more time, I would add ...

4 · Record Your Walkthrough 🎥

Now take a video on your phone (or a parent's phone) while you walk around your house. Talk through it like you are teaching someone who has never seen it. Try to use these words: **loop**, **repeat**, **block**, **wall**, **bug**.

1. Show the outside of the house and say how long and how tall it is.
2. Read your two loops out loud and say what each one does.
3. Show one bug you hit and how you fixed it.
4. Show any extension you tried — stairs, a second floor, or both — and say which loop you used for it.

Write what you will say in your video. Use the space below to plan it before you record — you can read from it while filming.
