

M003 Extension 2 — English Worksheet (Beginner)

Topic: Pixel-Art Mob Heads (x, y) · **Course:** 3D Coordinates · **Level:** Extension (Beginner, after Week 3)
· **Time:** about 30 minutes

Copy a mob head with **(x, y)**. x is **across**, y is **up**. The heads already stand in front of you in the world — look at them as you build.

● Stand on your **home spot** (red block) every run. Move, and the picture moves too.

1 · Predict 🧠

Read the steps. Circle or write your answer.

```
place green block at (4, 11)
place green block at (5, 11)
place green block at (6, 11)
```

A line across? Circle one: across · up

Which number stays the same — x or y?

```
place black block at (6, 6)
place black block at (6, 7)
```

Share x = 6, y grows. Circle one: across · up

2 · Find the Difference

Correct first, then **broken**. Write one sentence about the bug.

Pair A — Creeper eyes: (4, 11) and (10, 11).

```
# correct
place black block at (4, 11)
place black block at (10, 11)
```

```
# broken
place black block at (4, 11)
place black block at (4, 11)
```

What is wrong? Where do both land?

Pair B — Piglin eye: (5, 10).

```
# correct
place dark block at (5, 10)
```

```
# broken
place dark block at (10, 5)
```

What is wrong? Which numbers got swapped?

3 · Fill the Gap

To go **up**, the **second** number (y) grows. Fill the blanks to go up at $x = 6$.

```
place black block at (6, 6)
place black block at (6, __)
place black block at (6, __)
```

Word bank: 7 · 8

Write the two numbers:

4 · Tell Me What You Built 📷

Warm up. Copy this mini creeper face. Read each square's (x, y).

● **Mini creeper face**

	1	2	3	4	5
5					
4					
3					
2					
1					

Now build the big ● creeper below.

● **Creeper (green · #5dbb52, face · black)**

	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

Send a photo. Then finish these — 3 to 5 sentences.

I built the ...

The lowest block is at (x = ..., y = ...).

For a row I changed the ... number; to go up I changed the ... number.

The hardest square to read was ...

Next time I would ...
