

RB002 Week 3 — English Worksheet (Beginner)

Topic: Press E to Talk — ProximityPrompt · **Course:** Story Quest · **Level:** Beginner · **Time:** about 30 minutes

This week your NPCs come alive. A **ProximityPrompt** shows "Press E" when a player walks close, and **Triggered** runs your code when they press it.

1 · Predict 🧠

Read the script. Before you imagine running it, circle or write your answer.

```
local prompt = Instance.new("ProximityPrompt")
prompt.ActionText = "Talk"
prompt.Parent = script.Parent
```

You walk close to the part. Do you see the word **Talk** on the screen? Circle one: yes · no

Why?

```
local prompt = script.Parent.ProximityPrompt

prompt.Triggered:Connect(function(player)
    print("Hello!")
end)
```

You stand near the NPC but do NOT press E. Does **Hello!** print? Circle one: yes · no

2 · Find the Difference 🦁

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The NPC should say hello when the player **presses E**.

```
-- clean
local prompt = script.Parent.ProximityPrompt

prompt.Triggered:Connect(function(player)
    print("Hello!")
end)
```

```
-- buggy
local prompt = script.Parent.ProximityPrompt

prompt.Touched:Connect(function(player)
    print("Hello!")
end)
```

What is wrong? Which event works with a prompt?

Pair B — The prompt should show on the wizard part.

```
-- clean
local prompt = Instance.new("ProximityPrompt")
prompt.ActionText = "Talk"
prompt.Parent = script.Parent
```

```
-- buggy
local prompt = Instance.new("ProximityPrompt")
prompt.ActionText = "Talk"
```

What is wrong? Which line is missing?

3 · Fill the Gap

The code should run when the player presses E. One word is missing. Fill it in using the word bank.

```
prompt._____:Connect(function(player)
  print("Hello!")
end)
```

Word bank: Triggered · Touched · Color

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your own quest world. Add an NPC with a ProximityPrompt that prints a message when you press E. When you finish, come back here.

Send a photo or video of you talking to your NPC, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My NPC is a ...

When I press E, my code ...

One tricky moment was when ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) while you talk to your NPC. Talk like you are teaching a friend. Try to use these words: **ProximityPrompt**, **Triggered**, **press E**.

1. Walk close to your NPC and show the prompt on the screen.
2. Press E and show what happens in the Output window.
3. Say in your own words what **Triggered** means.

Write what you will say in your video. You can read from it while filming.
