

RB003 Week 7 — English Worksheet (Beginner)

Topic: Build Week — Your Full Tycoon · **Course:** Tycoon Engineer · **Level:** Beginner · **Time:** about 30 minutes

No new code this week. You connect everything you know: dropper → conveyor → collector → buy button.

1 · Predict 🧠

Read the script. Before you imagine it running in Studio, circle or write your answer.

```
collector.Touched:Connect(function(hit)
    if hit.Name == "Gold" then
        cash.Value += 20
        hit:Destroy()
    end
end)
```

A part named "Gold" touches the collector. Does cash go up? Circle one: yes · no

Why?

```
collector.Touched:Connect(function(hit)
    if hit.Name == "Gold" then
        cash.Value += 20
        hit:Destroy()
    end
end)
```

Now a part named "Rock" touches the collector. Does cash go up? Circle one: yes · no

2 · Find the Difference 🦖

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The dropper and the collector should use **the same name**. Capital letters count.

```
-- clean
ore.Name = "Ore"

if hit.Name == "Ore" then
    cash.Value += 5
end
```

```
-- buggy
ore.Name = "ore"

if hit.Name == "Ore" then
    cash.Value += 5
end
```

What is wrong? Why does cash never go up in the buggy version?

Pair B — The pad's sign says "**Gold Dropper — 100**". Buying should unlock the GoldDropper.

```
-- clean
local model = ServerStorage.GoldDropper:Clone()
model.Parent = workspace
```

```
-- buggy
local model = ServerStorage.OreDropper:Clone()
model.Parent = workspace
```

What is wrong? What do players get for their 100 cash in the buggy version?

3 · Fill the Gap

The collector should pay the player the right amount from the catalog. One word is missing. Fill it in using the word bank.

```
local catalog = {  
  {name = "Ore", payout = 5},  
  {name = "Gold", payout = 20},  
}  
  
for _, item in ipairs(catalog) do  
  if hit.Name == item.name then  
    cash.Value += item.____  
  end  
end
```

Word bank: payout · name · price

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your tycoon in Roblox Studio. Connect your dropper, conveyor, collector, and one buy button. When you finish, come back here.

Send a photo or video of your tycoon running, then explain what you built. Use these sentence starters — write 2 or 3 sentences.

My money loop works like this: ...

My first upgrade costs ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you play your tycoon from the start. Talk like you are teaching a friend. Try to use these words: **money loop, price, upgrade.**

1. Collect drops and show the cash going up.
2. Buy one upgrade and show what it unlocks.
3. Say which part of your tycoon is your favorite.

Write what you will say in your video. You can read from it while filming.
