

RB004 Week 7 — English Worksheet (Beginner)

Topic: Build Week — Your Full Arena Game · **Course:** Arena Legends · **Level:** Beginner · **Time:** about 30 minutes

No new syntax this week. You connect everything you know — teams, timer, power-ups, points — into **one full round loop**, and you design **your own** arena game.

1 · Predict 🧠

Read this part of a round loop. Before you imagine running it in Roblox Studio, circle or write your answer.

```
status.Value = "Intermission..."
task.wait(10)

status.Value = "FIGHT!"
points.Red = 0
points.Blue = 0
```

Do both teams start the round with 0 points? Circle one: yes · no

Why?

```
if points.Red > points.Blue then
    status.Value = "Red team wins!"
end
```

Red has 2 points and Blue has 5 points. Does "Red team wins!" appear? Circle one: yes · no

2 · Find the Difference 🐉

Each pair shows clean code first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — Every round should start fresh at 0–0.

```
-- clean
status.Value = "FIGHT!"
points.Red = 0
points.Blue = 0
```

```
-- buggy
status.Value = "FIGHT!"
```

What is wrong? What happens in round 2?

Pair B — The countdown should take one second per number.

```
-- clean
for i = 60, 0, -1 do
  timeLeft.Value = i
  task.wait(1)
end
```

```
-- buggy
for i = 60, 0, -1 do
  timeLeft.Value = i
end
```

What is wrong?

3 · Fill the Gap

The round should start with a 10-second intermission. One word is missing. Fill it in using the word bank.

```
status.Value = "Intermission..."  
task.____(10)  
status.Value = "FIGHT!"
```

Word bank: wait · delay · spawn

Write the missing word:

4 · Tell Me What You Built 📷

Now open Roblox Studio and build your full arena game: round loop, teams, timer, points. **You are the designer.** When you finish, come back here.

Send a photo or video of one full round, then explain your design. Use these sentence starters — write 2 or 3 sentences.

My game mode is ...

A team scores a point when ...

One tricky moment was when ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) while you playtest one full round. In Roblox Studio, use **Test → 2 Players** so both teams have a player. Talk like you are teaching a friend. Try to use these words: **intermission, countdown, winner**.

1. Start the 2-player test and show the intermission message.
2. Score a point and show the score changing.
3. Let the timer reach 0 and show the winner message.

Write what you will say in your video. You can read from it while filming.
