

M003 Week 7 — English Worksheet (Beginner)

Topic: Designing the Museum · **Course:** 3D Coordinates · **Level:** Beginner · **Time:** about 30 minutes

A museum needs three things you already know: a **floor** (x, z), **pictures on the walls** (x, y), and **sculptures on pedestals** (x, y, z). This week you design **one corner** of a museum and plan where each piece goes.

1 · Predict 🧠

Read the steps. Before you imagine it happening, circle or write your answer.

fill stone from (2, 0, 2) to (4, 1, 4)

This is a short, solid box — a pedestal to stand art on. It fills up to height 1. Is the top of the pedestal at height 2? Circle one: yes · no

Why?

place gold block at (3, 2, 3)

The pedestal above fills up to height 1, so its top is at height 2. Does this gold block sit right on top of the pedestal? Circle one: yes · no

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The sculpture should sit **on top** of the pedestal, at height 2.

```
# clean
fill stone from (2, 0, 2) to (4, 1, 4)
place gold block at (3, 2, 3)
```

```
# buggy
fill stone from (2, 0, 2) to (4, 1, 4)
place gold block at (3, 0, 3)
```

What is wrong? Where does the buggy gold block end up?

Pair B — Two artworks should stand in **different spots** on the floor so they don't crash into each other.

```
# clean
place gold block at (2, 2, 2)
place blue block at (6, 2, 6)
```

```
# buggy
place gold block at (2, 2, 2)
place blue block at (2, 2, 2)
```

What is wrong?

3 · Fill the Gap

The pedestal fills up to height 1, so its **top** is at height 2. The sculpture must start there. One number is missing. Fill it in using the word bank.

```
fill stone from (2, 0, 2) to (4, 1, 4)
place gold block at (3, ____, 3)
```

Word bank: 2 · 0 · 9

Write the missing number:

4 · Tell Me What You Built 📷

Now switch to your homework world. Design **one museum corner**: build a pedestal, put a small sculpture on top of it, and draw a small pixel-art picture on the wall behind it. When you finish, come back here.

Send a photo or video of your corner, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

My pedestal is at ...

My sculpture sits on top because its height starts at ...

My wall picture shows ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while you show your museum corner. Talk like you are teaching a friend. Try to use these words: **museum, pedestal, sculpture, picture.**

1. Show the pedestal and say its coordinates.
2. Show the sculpture on top and say what height it starts at.
3. Point at the wall picture and say what it shows.

Write what you will say in your video. You can read from it while filming.
