

M000 Week 2 — English Worksheet (Beginner)

Topic: Placing Blocks · **Course:** Builder Basics · **Level:** Beginner · **Time:** about 30 minutes

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
place block down
move forward
place block down
```

How many blocks did the agent place? Circle one: 1 · 2 · 3

Are the blocks next to each other or far apart?

```
move up by 1
place block down
```

Where does the block land — on the ground, or one block higher? Write one short sentence.

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should place a block, then move, then place another block.

```
# clean
place block down
move forward
place block down
```

```
# buggy
place block down
place block down
move forward
```

What is wrong?

Pair B — The agent should place 2 blocks in a line on the ground.

```
# clean
place block down
move forward
place block down
```

```
# buggy
place block down
move up by 1
place block down
```

What is wrong?

3 · Fill the Gap

The agent should place 3 blocks in a row. One line is missing. Fill it in using the word bank.

```
place block down  
move forward  
place block down  
_____  
place block down
```

Word bank: move forward · turn right · move up by 1

Write the missing line:

4 · Tell Me What You Built 📷

Now switch to your homework world. Place **3 blocks in a row** on the ground. When you finish, come back here.

Send a photo or video of your blocks, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

First, I used the command ... to place a block.

Then I moved ... so the next block would land ...

The hardest part was ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) and show your blocks. Talk like you are teaching a friend. Try to use these words: **place, block, move, forward.**

1. Show the blocks you placed.
2. Read your commands out loud.
3. Point to your favourite block and say why.

Write what you will say in your video. You can read from it while filming.
