

▲ M001 Week 5 — English Worksheet (Beginner)

Topic: First Pyramid · **Course:** Pyramid Problems · **Level:** Beginner · **Time:** about 30 minutes

A pyramid is square layers stacked up. Each layer is **smaller** than the one below it.

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
set size to 5
while size > 0:
    [build one size × size square layer]
    move up by 1
    set size to size - 2
```

The layers go 5, then ..., then ... Circle one: $5 \cdot 4 \cdot 3 \rightarrow 5 \cdot 3 \cdot 1$

Where is the biggest layer — bottom or top?

```
set size to 5
while size > 0:
    [build one size × size square layer]
    move up by 1
    set size to size - 2
```

How many layers does this pyramid have? Circle one: $2 \cdot 3 \cdot 5$

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — Each new layer must sit **on top** of the one below.

```
# clean
while size > 0:
    [build layer]
    move up by 1
    set size to size - 2
```

```
# buggy
while size > 0:
    [build layer]
    set size to size - 2
```

What is wrong? Where do all the layers land?

Pair B — Each layer should be **2 smaller** than the one below.

```
# clean
while size > 0:
    [build layer]
    move up by 1
    set size to size - 2
```

```
# buggy
while size > 0:
    [build layer]
    move up by 1
    set size to size - 1
```

What is wrong? Does the buggy pyramid still work, or does it look different?

3 · Fill the Gap

The pyramid should shrink and stop when the size reaches 0. One line is missing. Fill it in using the word bank.

```
set size to 5
while size > 0:
    [build layer]
    move up by 1
    _____
```

Word bank: set size to size - 2 · set size to size + 2 · move forward

Write the missing line:

4 · Tell Me What You Built 📷

Now switch to your homework world. Build a pyramid **starting at size 5** (so the layers go $5 \rightarrow 3 \rightarrow 1$). When you finish, come back here.

Send a photo or video of your pyramid, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

The bottom layer is ... blocks long.

Each new layer gets smaller by ...

The hardest part was ...

5 · Record Your Walkthrough

Take a video on your phone (or a parent's phone) and walk the camera around your pyramid. Talk like you are teaching a friend. Try to use these words: **pyramid**, **layer**, **size**, **shrink**.

1. Walk around the pyramid and show all 4 sides.
2. Say the sizes of the layers from bottom to top.
3. Show one bug you hit and how you fixed it.

Write what you will say in your video. You can read from it while filming.
