

M002 Week 3 — English Worksheet (Beginner)

Topic: AND Conditions — Two Things at Once · **Course:** Maze Madness · **Level:** Beginner · **Time:** about 30 minutes

This week your agent checks **two things at the same time** using **AND**. With **AND**, the action only happens when **both** are true.

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
if wall ahead AND wall on right:
    turn left
```

There is a wall ahead but the right side is open. Does the agent turn? Circle one: yes · no

Why?

```
if wall ahead AND wall on right:
    turn left
```

Now there is a wall ahead AND a wall on the right. Does the agent turn? Circle one: yes · no

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should turn left only at a **corner**: wall ahead AND wall on right.

```
# clean
if wall ahead AND wall on right:
    turn left
```

```
# buggy
if wall ahead:
    turn left
```

What is wrong? When does the buggy agent turn too early?

Pair B — The two checks should be **different** — front and right.

```
# clean
if wall ahead AND wall on right:
    turn left
```

```
# buggy
if wall ahead AND wall ahead:
    turn left
```

What is wrong?

3 · Fill the Gap

The agent should turn left only when **both** walls are there. One word is missing. Fill it in using the word bank.

```
if wall ahead ____ wall on right:  
    turn left
```

Word bank: AND · IF · THEN

Write the missing word:

4 · Tell Me What You Built 📷

Now switch to your homework world. Solve the maze using an **AND** condition. When you finish, come back here.

Send a photo or video of the agent reaching the end, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I used **AND** when ...

Both conditions were true when ...

One tricky moment was when ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while the agent runs the maze. Talk like you are teaching a friend. Try to use these words: **AND**, **condition**, **both**, **true**.

1. Show the start of the maze, then run your code.
2. Read your `if ... AND ...` line out loud.
3. Say in your own words what **AND** means.

Write what you will say in your video. You can read from it while filming.
