

M002 Week 6 — English Worksheet (Beginner)

Topic: Redstone Levers and Mazes · **Course:** Maze Madness · **Level:** Beginner · **Time:** about 30 minutes

This week the maze has a **lever**. Your agent **flips the lever** (`interact`) to open a closed redstone door, then walks through.

1 · Predict 🧠

Read the steps. Before you imagine the agent doing it, circle or write your answer.

```
move forward
interact ahead
move forward
```

The agent walks up to a lever and flips it. What happens to the door? Circle one: it opens · it closes · nothing

```
interact ahead
```

There is no lever in front of the agent. What happens? Circle one: the door opens anyway · nothing happens

Why?

2 · Find the Difference 🐛

Each pair shows clean steps first, then a broken version of the same idea. Circle what's different and write one short sentence about the bug.

Pair A — The agent should flip the lever **first**, then walk through the open door.

```
# clean
move forward
interact ahead
move forward
move forward
```

```
# buggy
move forward
move forward
move forward
interact ahead
```

What is wrong? What does the buggy agent walk into?

Pair B — The agent should walk **up to** the lever, then flip it once.

```
# clean
while no lever ahead:
    move forward
interact ahead
```

```
# buggy
while no lever ahead:
    move forward
    interact ahead
```

What is wrong? How many times does the buggy agent interact?

3 · Fill the Gap

The agent stands right in front of the lever. It must flip it, then walk through the door. One line is missing. Fill it in using the word bank.

```
_____
move forward
move forward
```

Word bank: interact ahead · place block down · turn right

Write the missing line:

4 · Tell Me What You Built 📷

Now switch to your homework world. The maze has a **lever** that opens a **closed door**. Walk the agent to the lever, flip it with **interact**, and go through the door to the goal. When you finish, come back here.

Send a photo or video of the agent reaching the end, then explain what you did. Use these sentence starters — write 2 or 3 sentences.

I used `interact` to ...

Once the door opened, the agent ...

The hardest part was ...

5 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) while the agent runs the maze. Talk like you are teaching a friend. Try to use these words: **lever**, **interact**, **door**, **open**.

1. Show the closed door and the lever.
2. Run your code and show the agent flipping the lever.
3. Say which line of your code opens the door.

Write what you will say in your video. You can read from it while filming.
