

Builder Basics — The Impossible Statue (Extension · Beginner)

Topic: Place + Move, On and Off · **Course:** Builder Basics · **Level:** Beginner · **Type:** Extension Activity ·
Time: about 30 minutes

✚ This is a bonus challenge, not a weekly lesson. Try it once you can place blocks and move the agent.

1 · Read the World

Open the **Impossible Statue** world. It is a puzzle. Look at the colours first:

-  **Red blocks** — where the agent **starts** and where it **ends**.
-  **Crying obsidian** — **build here**. Place a block on every dark spot.
-  **Glass** — **skip here**. Move past it, but place **nothing**.

What do you do on a crying obsidian spot? Circle one: place a block · skip it

What do you do on a glass spot? Circle one: place a block · skip it

2 · Place On, Place Off

The agent moves in a line. On a build spot, you **place**. On a skip spot, you only **move** — no place.

```
place block down  
move forward  
move forward  
place block down
```

How many blocks does this place? Circle one: 1 · 2 · 3

One step has a move but no place. That is a skip. Write one sentence about why we skip it.

3 · Fill the Gap

The pattern should be: **build, skip, build** (B S B). One line is missing. Fill it in using the word bank.

```
place block down
move forward
_____
place block down
```

Word bank: move forward · place block down · turn right

Write the missing line:

4 · Find the Mistake 🐛

The pattern should be **build, skip, build** (B S B). This code places a block on the skip spot by mistake. Circle the extra line and write one sentence about the bug.

```
place block down  
move forward  
place block down  
move forward  
place block down
```

What is wrong?

5 · Build the Statue 📷

Go to the Impossible Statue world. Place blocks on the crying obsidian spots, skip the glass spots, and finish on the red end block.

Send a photo or video of your build, then explain it. Use these starters — write 2 or 3 sentences.

First, I placed a block on ... using the command ...

I skipped the glass spot by ...

The hardest part was ...

6 · Record Your Walkthrough 🎥

Take a video on your phone (or a parent's phone) and show your build. Talk like you are teaching a friend. Try to use these words: **place, skip, move forward, start, end.**

1. Point to the red start and red end blocks.
2. Show one block you placed.
3. Show one glass spot you skipped and say why you placed nothing there.

Write what you will say in your video. You can read from it while filming.
